# GENERAL SURVEY

Participant Consent:
You have been invited to participate in a survey conducted by students in the course SENG 310 "Human Computer Interaction". This is being done as part of a research piece preparing for the design of a resume writing application.
The aim of this survey is to understand the behaviours of people when they are writing and preparing resumes, and to better understand their priorities around networked software applications.

This survey is anonymous, and the results will be presented in aggregate as part of our research. Your participation is voluntary, and you may withdraw at any time.

By continuing with this survey, you are consenting to those conditions.
Thank you for your participation!
